

Outdoor Classroom at Independent School

Adopt-a-Rock...and help build a better future at Independent School!

We have an exciting opportunity at Independent School! This opportunity is a chance to enhance the learning experience of students and strengthen our community. Independent school is a sought-after school district because of parent involvement, motivated and encouraging staff members and overall sense of community. Independent is a school that nurtures students to grow into leaders by helping to create well-rounded human beings. As adults and role models, it is critical that we educate the students on the importance of community involvement and working together to achieve something great.

For all of these reasons, Independent School is teaming up with *All Design Landscaping* to create an outdoor classroom. *All Design* is a business that is owned and operated by Independent School families. The outdoor classroom will be located behind the school in our nature-preserve area. The natural surroundings ~~to~~ will create a truly unique learning experience. Phase one of the classroom will be the construction of two rows of seating. The seating area will be made out of landscaping boulders and built into the side hill. There will also be a level teaching area below in front. This natural auditorium, will be able to seat 40-50 students. Phase two of the project, will be the addition of working concrete tables to the level teaching area, and an awning over the seating area. The materials used will be low maintenance and weather resistant. The overall goal is to improve the learning experience and to make a lasting impact for the students of Independent School for generations to come.

In order to accomplish this amazing opportunity, we need your help. Donations will be accepted through the "**Adopt-a-Rock**" program. The program is available for families, as well as businesses, and there are donation options for every budget. If you wish to donate, your family or business name will be forever stamped into Independent's history with an on-site contribution plaque. The donation levels are as follows:

Club	Donation	You adopted...
Platinum	over \$100	Your own rock!
Gold	\$100	Your own rock!
Silver	\$50	Half of a rock!
Bronze	Under \$50	Part of a rock!

All other donations are welcome, including your help, or other resources and materials. No donation is too small!

Thank you parents and community members for your support this year and contributions in the past! Together we can build a better school and a stronger community.
